EMPLOYMENT BACKGROUND

Landing Page - ListingOK

HTML - CSS | JANUARY 2023

Developed the landing page according to client's needs and especifications. The client requested the website to be done only for desktop. The UX and UI were planned by me. The idea of the site is to be an informative website where users can get in touch with the owner and learn what is the purpose of the company.

Roswell

REACTJS - VUE JS - LIQUID | AUGUST 2022 - DECEMBER 2022

I have developed the frontend of several ecommerces for the different client/merchants, creating sections, templates and/or layouts that were created according to the client's needs.

Advancing Diversity - Mentoring

FULL STACK - REACT, .NET, SQL | MARCH 2022 - AUGUST 2022

I integrated a third-party application (Calendly) for the company's app with the objective of enabeling the creation of One-to-One or Group appointments between mentors and mentees. As the third-party app presented CORS policy issues, the project was developed with .NET for solving said problem. Also, the app had the use of React for consuming APIs, as well as, the develop of the frontend and Calendly's UI. Also, II was responsible for the UI of the organization dashboard.

Eton Auction - Ecommerce

NEXTJS | OCTOBER 2021 - MARCH 2022

Develop the frontend of the e-commerce with NextJs. I was mainly responsible for the whole UI of the site. Also, integrated the SEO to the site for the components that I developed.
